LAKEMONT GARDENS

Winter Park, Florida, U.S.A.

 GINGER FAMILY ::: ZINGIBERACEAE

KAEMPFERIA PULCHRA, Peacock Plant, formerly listed as K. Roscoeana, superb pot plant, lavender-pink flowers, handsome bronzy-patterned dark green leaves, part or full shade, blooms all summer and fall, dormant in winter. Roots, single divisions, \$1.00 (small); larger crown (multiple) 2.50

KAEMPFERIA ELEGANS (?) gray designs on green leaves 1.50

KAEMPFERIA GALANGA, white blooms, purple dotted, 1.00

KAEMPFERIA ROTUNDA, Resurrection Lily, scented 50¢, 1.00

KAEMPFERIA GILBERTII, white-edged pointed leaves .50

KAEMPFERIA INVOLUCRATA (?) pink blooms, plaited fol. 1.00

Size different species as above, for pot plants, \$5.00

ZINGIBER ZERUMBET, Red Pine Cone Ginger, showy cones fall, hardy lower South, fine for arrangers, roots 1.00

ZINGIBER OFFICINALE, Canton or edible ginger 1.00

ZINGIBER DARCEYI, variegated type of Z. zerumbet 2.00

ZINGIBER "FAIRCHILD", will bloom in gallon can 1.50

ZINGIBER "FOSTER", long cylindrical flower cones 1.00

ZINGIBER AROMATICUM, rare type cones 5.00

ZINGIBER "MALAYAN PRIDE", giant, 1-foot pointed cones 5.00

HEDYCHUM CORONARIUM, white ginger, highly scented 1.00

HEDYCHUM FLAVESCENS, (H. flavum) light yellow, tall, 1.00

HEDYCHUM ACUMINATUM var. SPICATUM, rare type 5.00

HEDYCHUM COCCINEUM var. CARNEUM, coppery red fl. 3.00

HEDYCHUM COCCINEUM var. ANGUSTIFOLIUM, rare red 5.00

HEDYCHUM GARDNERIANUM, rich yellow spikes, the fabulous Kahili Ginger of Hawaii 3.00

CURCUMA ZEDOARIA, wine-purple cones, old-time medicinal species, striped foliage useful in bouquets 50¢ & 1.00

CURCUMA LATIFOLIA, one of our finest introductions, giant foliage, 6 ft tall, showy lavender-rose cones, 2.00

CURCUMA PETIOLATA, Orchid-pink Ginger, easy, half-hardy, grown all over lower South, blooms summer, 50¢ & 1.00

CURCUMA ROSCOEANA, the pot plant gem of the genus, coppery bracted cones in late summer, dwarf type, \$3 and \$5

THREE OTHER UNIDENTIFIED CURCUMA SPECIES, 50¢ each

X X COSTUS SPIRALIS, 3 to 6 ft. tall, "spiral flag", at last identified authoritatively, coral-rose flowers, red cones, striking foliage plant, part shade, will bloom North, 1.00

COSTUS SPECIOSUS--tender, showy tropical species 2.00

COSTUS IGNEUS, Costus spicatus, available soon.

"CARDAMON PLANT"..a miniature Alpinia-like foliage plant, richly ginger-scented leaves, for planters, etc 1.00

ALPINIA SPECIOSA (A. nutans) SHELL GINGER, half-hardy, invaluable, spectacular Pink Porcelain Lily, tall, easy 1.00

LIBRARY
 RECEIVED
 FEB 15 1960

ALPINIA MUTICA--smaller species, upright bloom 3 for 1.
 ALPINIA FORMOSANA, smaller, low border or hedge, 3 for 1.
 ALPINIA KUMATAKE, from Southern Japan, new, roots 3.00
 ALPINIA CHINENSES, from South China area new, rare 3.00

Alpinia malaccensis available later

BANANA FAMILY MUSACEAE

HELICONIA LATISPATHA, "Macaw plant", long yellow bracts,
 tall, showy banana-like foliage, half hardy at root 5.00

STRELITZIA NICOLAI--giant bird of paradise, blue and
 white flowers, tough, vigorous, to 25 ft., small plants, \$3.00

LILY FAMILY -- LILIACEAE

XX EUCOMIS UNDULATA--South African Pineapple Lily, easy
 bulb, blooms in summer, tufted flower stem, 1.50

SANSEVIERIA GUINEENSIS, giant species, 2 ft. bloom 1.00

XX TRICYRTIS FORMOSANA, attractive perennial pot plant,
 "toad lily", small flowers spotted purple on white, 1.50

TULBAGHIA VIOLACEA, Society Garlic, lavender bloom 50¢

TULBAGHIA FRAGRANS, winter bloom, honey-scented, fine
 pot plant with attractive foliage, makes true bulb, 1.50

GLORIOSA LILIES--OUR NEW YELLOW HYBRIDS

XX HAYWARD HYBRIDS OF GLORIOSA GREENEAE (Hort.) mixed 5.00

Some of these will show wine feathers and markings to
 greater or lesser degree on petals. CLEAR YELLOWS-- 35.00
 Free blooming, thrifty, have flowered from Hawaii to Rome.
 This is one of our finest bulb introductions. Very Rare.

 known and most popular species for gardens north and
 South, according to size, 50¢, 75¢, \$1.00 and \$1.50.

GLORIOSA SUPERBA, red and yellow, old species, 50¢ & 1.

GLORIOSA SUPERBA YELLOW JOY, opens all yellow, \$3.00

XX GLORIOSA CARSONI -- claret and yellow, tall, fine, \$1 & \$2.

GLORIOSA PLANTII, dwarf orange and yellow, dainty, 50¢, \$1

GLORIOSA VERSCHUURII, new species, wide petals, \$3.00

IRIS FAMILY --- IRIDACEAE

MARICA GRACILIS--walking iris, "12 apostles plant", 50¢

TRIMEZIA CARIBAEA--Moraea-like cormous beauty 1.00

ARISTEA EKLONII, blue-flowered, easy, fibrous rooted 1.00

EUSTYLIS PURPUREA--purple Tigridia-like miniature 1.00

HERBERTIA COERULEA--similar blue-flowered jewel 1.00

CYPELLA HERBERTII, yellow flowered cormous, larger 1.50

MORAEA (DIETES) BICOLOR, fibrous rooted perennial,

attractive, hardy, lower South, yellow fl. .50

MORAEA (DIETES) IRIDIODES, similar, white flowers 1.00

GESNERIA FAMILY -- GESNERACEAE

The cultivated Gesneriads

These include the African Violet, Achimenes, Florists "Glox-
 inia" (SINNINGIA HYBRIDS) and many other rare choice plants.

XX ACHIMENES (A-kim-en-ees) XX

Beautiful flowering plants grown from small
 "scaly rhizomes" or tubercles, highly valued for pot plant
 window box or hanging basket use. An old favorite, better
 known and appreciated 100 years ago than today and just
 recovering some of its lost popularity. The rhizomes are
 like tiny pine cones in many cases, and grow well in shade
 and warmth. We plant March-June, in outdoor lath house here
 in Central Florida. 30 named varieties or more available,
 some in short supply this season. Go dormant in winter.
 We ship the tiny rhizomes in vermiculite insulation all
 over the world with safety. They are fascinating, valuable

as trailers, bushy types, many for foliage as well as flowers. A few are superb flowering display types at their peak. All are distinctive and intriguing. Try them. Full cultural suggestions provided:

ACHIMENES: 1 doz. fine mixed, \$1.00; Two each, of ten named varieties, \$2.50; five each of 15 named vars., \$5.00. If you would prefer shades, not named varieties, "nine different shades, white, pink, lavender, red, blue, purple, cerise, violet and magenta, five tubercles of each, \$5.00.

"ROYAL PURPLE" (Purple King) standard and best \$1.00 dozen; "CHARM" the finest pink, \$3.00 doz.; MARGARITA, nearest white, (trailer) \$1.50 doz.

MAGNIFICUM (Longiflora major) big blue, upright, 2.00 doz.; DAINTY QUEEN, best white with slight lavender dots and lines, \$2.00 doz.; Little Beauty, salmon rose, rare, \$3.50 doz.; MINIATA, smoky crimson, trailer, yellow throat, \$1.50 doz.; GALATEA, trailer, standard blue, early free flowering, pure A. longiflora type, 1.50 doz.; PINK BEAUTY, lavender rose longiflora type, 2.00 doz.; VIVID, upright, easy cerise, later season, 1.50 doz.; MME. GEORGES, lovely violet trailer, 1.50 doz.; LENORE, new upright violet-purple, 25¢ each; ACHIMENES GLABRATA, trailer with white Gloxinia like blooms, dotted purple, 25¢ each; ACHIMENES MEXICANA (Storm Cloud, etc) upright type, open blue fl., light green wooly foliage, different, 2.50 doz.; PATENS, bright rose-purple, compact pot type, 1.00 doz.; MADUNA, foliage type, rich green leaves veined red, rose-lavender flowers, 1.50 doz.; BIG BOY BLUE, giant upright blue with orange throat, longiflora type, 1.50 doz.; AMBROISE VER-SCHAFFELT, one of freest blooming, great cascades of lavender-lined on white blooms, one of best, \$2.50 doz.

The following varieties are short this season:

ROBUSTA, fine foliage type, large flowers, lavender-rose, a super-maduna, 25¢; NESSIDA, 25¢; VIOLACEA SEMI-PLENA (rich purple with "rosebud" centers, 50¢; Master INGRAM, near cherry red, trailer, 50¢; MASTERPIECE, 25¢; MME. GEHEUNE, bronzy foliage type, upright, 25¢; MILTONI (A. heterophylla) 25¢; A. Skinneri, tall, dark red fl. 25¢; FRANCOIS CARDINAUX, dwarf, open blue & white fl., 25¢.

For additional information see General catalogue.

(THREE or 6 at doz. Price)-- New Gesneriad book!

OTHER tuberous Gesneriads: See Dr. Harold A. Moore Jr.

GLOXINIA PERENNIS, true species, blue flowers in fall, begonia-like foliage, Achimenes-like rhizomes, \$2.00

SINNINGIA REGINAE, old time dwarf species, 2.00

GLOXINERA "ROSEBELLS", (Schultz) fine showy pink flowers, attractive foliage, \$2.50;

RECHSTEINERIA WARSCEWICZII, don't let the name scare you. This is a handsome "orange sky-rocket" plant, grown from sturdy, tough tubers, rare, 2 to 3 ft tall, \$2.00

RECHSTEINERIA SELLOWIANA, another tall species, with smaller red and greenish-bronze flowers, easy, 1.00

SINNINGIA TUBIFLORA, (formerly listed as Achimenes, not easy to bloom well, small tubers, 3 for \$1.00/

Two Rare Gesneriads with tiny flowers and having rhizomes like Achimenes! delightful Gesneriad" botanicals

DIATEMA QUINQUEVENERA, like a tiny, bushy Achimenes, white tubular flowers, purple dotted on lobes, \$2.00; KOELLIKERIA

ERINOIDES, basal cluster of foliage, orchid-like sprays, flowers mainly dark red & bronze, \$3.00 each. Page 3

PINEAPPLE FAMILY -- BROMELIACEAE

BILLBERGIA PYRAMIDALIS, old time, showy light green vase type, red flowers and bracts, blooms late summer, half hardy lower South, fine pot plant (or garden) 1.50
BILLBERGIA NUTANS, elementary species, .50
BILLBERGIA SAUNDERSII, leaves white dotted, easy 50¢
BILLBERGIA SAUNDERSII, leaves green 50¢

These two types bloom at Christmas time with brilliant red bracts and drooping inflorescence.

BILLBERGIA EUPHEMIAE, grayish urn-shape, bright violet flowers, rather tender, small, \$1.00.

AECHMEA ORLANDIANA, beautiful vase type with dark chocolate marbling on light green, small \$2.50

AECHMEA HYBRID "FOSTER'S FAVORITE", wine colored foliage, charming, best known American hybrid, suitable for four inch pot, hanging baskets, planters, etc. small, \$1.

NEOREGELIA MARMORATA hybrids, Finger Nail Plant, widely urn-shaped, scarlet-tipped foliage, light green leaves with mahogany marbling and markings, small, \$1.50

NEOREGELIA SPECTABILIS hybrids, more uniform, more blue-green base color with scarlet tips on leaves, small 1.50

Flowers are violet in these two species, they bloom in summer, in compact head down inside the "vase". Above are two of the most popular "decorator" Bromeliads today.

DYCKIA SULPHUREA, a succulent Bromeliad, like a miniature agave, 1.00.

We would prefer to ship Bromeliads after April 1st to avoid cold damage en route. Some are very tender.

ANANAS BRACTEATUS: a fine, vigorous, spiny-foliaged wild type Pineapple, good taste but full of seeds: 5.00

BROMELIA BALANSAE, beautiful but spiny terrestrial garden type Bromeliad, striking bloom heads and fruits, plant where it is safe for children and pets 3.00

AROID FAMILY -- ARACEAE

PHILODENDRON SELLOUM, self-heading pot plant type, desirable ornamental, for garden in lower South will stand 25 degrees ~~free~~ when dormant. \$3.50

ALOCASIA MABRORRHIZA, giant "elephant ear" of the South Seas, upright petioles and blades, sm. plants 2.00

ALOCASIA AMAZONICA, showy hybrid of A. Sanderiana type, but more vigorous, thrifty, small, \$3.50

ALOCASIA INDICA VAR. METALLICA, an interesting and attractive "elephant ear" with gun-metal foliage, 3.50

XANTHOSOMA VIOLACEA, very pretty violet-purple petioles and bluish blades, garden type, lower South, 2.00

XANTHOSOMA JACQUINII, giant West Indian species, \$5.

SPATHIPHYLLUM CLEVELANDII--fine small pot plant, with white anthurium-like spathes, \$1.00 and \$2.50.

SPATHIPHYLLUM CANDIDUM, more robust type, nice, \$2.

SAUROMATUM GUTTATUM--lizard lily, corms, 50¢ & 1.00.

AMORPHOPHALLUS RIVIERI--snake palm, \$2.00, & \$5.00

AMORPHOPHALLUS CAMPANULATUS, giant bell-shaped blooms, Southeast Asian and Pacific Island food plant, rare, a few tubers available, \$2.00 and \$5.00 acc. to size.

AMORPHOPHALLUS BULBIFER, smaller rose-calla-type flowers, same bad odors, makes bulbils on leaves, odd, 1.00

The Amorphophallus plants are highly desirable for tropical foliage effects, in summer. They like warmth, moisture and shade, do well in 6 to 8 inch pots and cans. Foliage is finely cut and highly ornamental. Page 4

FANCY-LEAVED CALADIUMS (ARACEAE CONT'D)

Our specialty for many years, fine mixed, \$3.50 dozen
Standard Type Caladiums will be available from March
to May or June. Highly colorful for pot plants & garden.
HALF DWARF PINK "BILLIE BURKE" (rare) \$2 each

X X CALADIUM HUMBOLDTII ("ARGYRITES") the miniature white
and green species which makes a compact, bushy plant
by summer's end, high ornamental, decorative value, \$1.50
This is one of the world's great fancier's foliage items

X X ARROW & LANCE TYPE CALADIUMS

Latest novelty of the caladium world, narrow lance
and more blunt cordate leaves of the arrow types of
leaves on miniature and dwarf plants. Fine for pot plants
and foliage useful for cutting when grown in quantity.
Also desirable for garden, pots and boxes, planters etc.
Excellent assortment of varieties, six for \$3.00. Arrow
and Lance caladium tubers run to smaller sizes than the
standard caladiums, an inch to an inch and a half.

NAMED VARIETIES (arrow & lance) : RED ARROW, RED
FRILL, CALOOSAHACHIE, PAULA LIETZE, JUNO, HORATIO SYD, \$1. ea.
E.O. ORPET, best red lance, \$3.00 each; Three white arrow
varieties, WHITE WINGS, OUR LADY OF FATIMA and DUCHESS OF
ALBA, \$5.00 each. MIGNON, our introduction, smallest red, \$5.

AMARYLLIS FAMILY -- AMARYLLIDACEAE

AMARYLLIS JOHNSONII -- old hybrid (Louisiana type) 1.00

AMARYLLIS ACKERMANNI, old English hybrid 4.00

AMARYLLIS STRIATA var. FULGIDA, as available \$2 and \$3.

RHODOPHIALA (AMARYLLIS) BIFIDA, Ox-Blood Lily, 50¢ each,
or \$3.50 doz as they come. Half hardy, fine for lower So.

X X HABRANTHUS MULTIFLORUS -- Blood Lily, Fireball Lily,
Football Lily, globes of fire in May-June. Super! good
blooming size, \$5.00; smaller \$3.00. Amaryllis culture.

"SPARKMAN'S BEAUTY", Florida Hybrid Habranthus, \$2.50

X X ZEPHYRANTHES GRANDIFLORA, large pink, now scarce 3.50 doz.

X X ZEPHYRANTHES INSULARUM, found at Key West, white, 1.50 doz

X X ZEPHYRANTHES ROSEA, dainty Cuban pink species, \$1. doz.

ZEPHYRANTHES CANDIDA, old time fall blooming white 1 doz

X X ZEPHYRANTHES CITRINA, fine golden yellow, \$2.50 doz.

ZEPHYRANTHES MACROSYPHON, medium pink, Mexico, 35¢ each

COOPERIA DRUMMONDII, Texas prairie lily, white, 25¢

COOPERIA PEDUNCULATA, larger Texas rain lily 25¢

COOPERIA SMALLI, new South Texas yellow species 50¢

COOPERANTHES LANCASTERI, hybrid from India, 1.00 each (white)

hybridizing the Zephyranthes, Cooperias and Habranthus
is one of the latest plant enthusiasms. Many new hybrids
and rare native types are now becoming available.

HABRANTHUS ROBUSTUS, the orchid-pink rain lily, 1.50 doz.

HABRANTHUS BRACHYANDRUS, white and wine color, 25¢ each

HABRANTHUS ANDERSONI var. TEXANUS, copper prairie lily,
small bulbs, \$1 doz.

HYMENOCALLIS (ISMENE) "SULPHUR QUEEN", yellow hybrid, \$2. ea.

HYMENOCALLIS TENUIFLORA, superior garden, pot type, \$2.00

HYMENOCALLIS SENEGAMBICA large white coronas, \$2.00 ea.

HYMENOCALLIS HARRISIANA, slender flowers, easy 1.00 each

HYMENOCALLIS CARIBAEA, common Florida garden bulb, 50¢ ea

HYMENOCALLIS PEDALIS variegata, white edged leaves, \$5.00

HYMENOCALLIS KIMBALLI, West Florida species, large, 5.00

HYMENOCALLIS MEXICANA(?) dwarf white, narrow leaves, 1.00

HYMENOCALLIS (ISMENE) AMANCAES, yellow species (Peru) 3.00

PAGE 6

AMARYLLIDACEAE CONT'D.

LYCORIS AUREA, golden hurricane lily, Fla. type, 1.50
LYCORIS TRAUBII (Jap. yellow) a gorgeous flower, 1.00
LYCORIS RADIATA, red spider lily, Southern type \$1.50 doz
LYCORIS RADIATA, Japanese type bulbs 1.50 doz
LYCORIS CALDWELLI, pale yellow Chinese species, 3.00
LYCORIS HOUDYSHELII, new white from China, superb, 25.00
LYCORIS INCARNATA, blush rose-lavender 1.50
LYCORIS ALBIFLORA, creamy white to pinkish, (Jap.) 1.50
LYCORIS SANGUINEA, Japanese brick-red species 3 for \$1
LYCORIS SQUAMIGERA, hardy species, not for far So. 50¢

CRINUM HYBRIDS: ELLEN BOSANQUET, wine red, \$2.50; POWELLI
ALBUM, white, \$2.50; CECIL HOUDYSHEL, fine pink, \$2.50;
LOUIS BOSANQUET, pale red and white, earliest to bloom,
\$2.00; AMARCRINUM HOWARDII, \$2.00; AMARCRINUM DELKIN'S
FIND, \$2.00; J.C. HARVEY, pink, \$2.00; half size at half price.

CRINUM SPECIES: Crinum asiaticum, large white, \$5.00 for
large size, small seedlings, 50¢; Crinum amabile, giant milk
and wine lily, small, \$2.00; Crinum zaccarubescens, choice
milk and wine type, \$2.00; Crinum kunthianum, pale red
striping, effective, \$2.00; CHRISTOPHER LILY (C. giganteum
hybrid) large \$2.00; Crinum Giganteum, white "African tulip
Lily", \$3.00; Crinum Zeylanicum, old fashioned Milk & Wine
Lily, purple striped, \$2.00; Crinum Americanum robustum,
\$2.00 (good garden type); CRINUM BULBISPERMUM, from the
Cape of Good Hope, hardiest of all Crinums, early spring
blooming, milk and wine striped ~~type~~ species, heavy
seed and parent of many hybrids, \$2.00. Half size at
half price.
